Problem Solving - Attention to Detail - Teamwork & Collaboration - Effective Communication - Time
Management - Adaptability - Continuous Learning - Client Orientation - Creativity - Responsibility & Ownership

Languages: Language: Arabic Proficiency in English: Good

Work Experience:

Frontend Developer H2M – Cairo, Egypt (On-site) September 2024 – June 2025 - Developed and maintained responsive user interfaces (UIs) for marketing campaigns and internal tools. - Translated design mockups into functional web experiences using React.js and modern web technologies. - Contributed to building an AI-powered Messenger chatbot using Gemini AI and a dynamic image-fetching system.

Freelance Experience:

Frontend Developer (Freelance) May 2024 – Present - Delivered tailored frontend solutions for diverse freelance projects, including interactive maps and admin dashboards. - Utilized React.js, Firebase, and modern APIs to build functional, responsive interfaces.

Key Projects:

Interactive Travel Portfolio

Built a travel planner that allows users to register and visualize trip routes on an interactive map. Tech Stack: React.js, Firebase, Google Maps API

Task Management System

Designed an admin dashboard to assign tasks, track user progress, and manage completion logs.

Tech Stack: React.js , Firebase

Trip-trace

Developed a full-featured travel web app where users log in, request custom trips, and visualize routes. Includes profile pages and trip history.

Repo: <https://github.com/AhmedAbdElgwadHassen19/inDrive.git>

Live Demo: <https://triptrace0.netlify.app>

Tech Stack: React.js, Leaflet Routing Machine, Bootstrap 5, JSX, React Router, @react-google-maps/api

Tsakat

Developed a responsive web application to display content or services (add a description if available).

Repo: <https://github.com/AhmedAbdElgwadHassen19/Tsakat.git>

Live Demo: <https://tsakat.netlify.app>

Tech Stack: React-Vite, Bootstrap 5, Hooks, React Router DOM

Web-Products

Built a frontend product showcase application displaying a variety of products with a clean layout.

Repo: <https://github.com/AhmedAbdElgwadHassen19/Web-Products.git>

Live Demo: <https://web-product10.netlify.app>

Tech Stack: React.js, Bootstrap 5, Hooks, React Router DOM
