Language: Arabic                      Proficiency in English: Good

## Projects :-

### Freelancer Front-End Developer

May 2024 – Present

Delivered tailored front-end solutions for diverse freelance projects including Alchatbots , interactive maps, and admin dashboards — utilizing React.js and modern web technologies.

### Key Projects:

#### AI Messenger Bot System : -

Developed an AI-powered Messenger chatbot that responds with dynamic tones using Gemini AI.

- Integrated a custom image-fetching system based on user-uploaded content.

Tech stack: React.js, Node.js, Express, MongoDB, Gemini Studio

#### Interactive Travel Portfolio : -

Built a travel planner where users can register and visualize trip routes using an interactive map interface.

Tech stack: React.js, Firebase, Google Maps API

#### Task Management System : -

Designed a dashboard for admins to assign tasks and track user progress with timestamps and completion logs.

Tech stack: React.js, Firebase

#### TripTrace : -

Developed TripTrace, a web app that allows users to log in, request custom trips with route visualization on a map, and view trip history and personal info on their profile page.

Tech stack: React.js, leaflet-routing-machine, Bootstrap 5, JSX, React Router ,@react-google-maps/api

---

#### Title :- TripTrace :-
